The Mid-Coast Trolley Extension

An 11-mile addition to the San Diego Trolley system, the Mid-Coast project will extend the Blue Line from Old Town up along Interstate 5 to the UC San Diego campus and beyond. The new service will create a one-seat ride from the international border through Downtown San Diego and on to University City, connecting the region's two largest job centers. The project will add nine new stations, connecting the trolley system to destination points such as Mission Beach, Pacific Beach, the VA Medical Center, and the busy shopping, commercial, and residential districts along Genesee Avenue.
