

MID-COAST TROLLEY CONSTRUCTION UPDATE

MID-COAST CORRIDOR
TRANSIT PROJECT

Construction of Interim Bike Path

Beginning in May of 2016, work will commence on an interim bikepath north of State Route 52. The temporary bikeway will reroute bicycle traffic from the existing Rose Canyon Bike Path in order to allow for crews to relocate existing utilities in the area and make way for the future construction of the Mid-Coast Trolley project.

Interim Bike Path

- The existing bike path will remain open until the interim bike path is operational.
- The interim bike path will be located between Gilman Drive, north of the State Route 52 crossing of the railroad tracks, and the end of Santa Fe Street.
- Please exercise caution and safety when using the interim bike path.

Construction Schedule

May 2016 - June 2016

Concurrent SDG&E Construction Activities

San Diego Gas & Electric Co. will be working in the same area concurrently to relocate a 16-inch gas line from June 2016 to November 2016.
