Morena Boulevard, Balboa Avenue, and Santa Fe Street Water and Sewer Utilities Relocation

Beginning mid-October, exploratory work along Morena Boulevard, Balboa Avenue, and Santa Fe Street will begin to relocate utility lines in advance of construction on the Mid-Coast Trolley project. Main construction will begin in November 2015.

Main construction activities include:

- Street excavations, potholing, and trenching
- Water and sewer pipeline installation along the entire length of Santa Fe Street, starting at Balboa Avenue
- Water pipeline installation on Balboa Avenue from I-5 ramp to Morena Boulevard
- Temporary traffic controls will be in place along Morena Boulevard, Balboa Avenue, and Santa Fe Street
- Temporary water service interruptions are necessary to complete this work; residents and businesses will be provided with at least 5 days notice prior to service interruptions
- Crews will minimize impacts to neighboring homes and businesses as much as possible

Access to nearby businesses will be maintained at all times.

Schedule

Construction activities are anticipated to begin in mid-October 2015. The entire Mid-Coast project-related water and sewer utilities relocation work is anticipated to be complete in October 2016. However work in your area may be completed prior to that date.

Work Hours

Due to the location and nature of the work, **some night and weekend work is required.** Daytime work hours are Monday through Friday, from 7 a.m. to 5 p.m. Nighttime work hours are Monday through Friday, from 7 p.m. to 7 a.m.

There may be times when 24-hour work is required. Prior notice to residents and businesses will be provided.

About the Project

The Mid-Coast Trolley project will extend Trolley service from Santa Fe Depot in Downtown San Diego to the University City community, serving major activity centers such as Old Town, the University of California, San Diego (UCSD), and Westfield UTC. Nine new stations will be constructed. Major construction work will begin in 2016, with service anticipated to begin approximately four years later.
